## **Chapter 2**

### **Rules and procedure for intervening in the event of suspected abuse or information about abuse of a minor.**

In the event of suspicion of abuse of a minor or information about the abuse of a minor, the Staff of the Institute is obliged to undertake interventions according to the following rules and procedures.

As a rule, intervention is undertaken immediately in the event of suspicion of harm to a minor or information about harm to a minor.

As a rule, if the Institute Staff suspects that a minor has been harmed or that the Staff of the Institute has information about harm, the minor is immediately removed from working with children until the matter is clarified.

The intervention is undertaken by the person responsible for receiving reports. If the suspicion of harm or the information in our possession indicates a threat on the part of the person responsible for receiving reports or if there are other urgent circumstances hindering or delaying its undertaking, the intervention is undertaken by another person indicated by the Person Managing the Institute.

The staff of the Institute is obliged to prepare an official note in the event of a situation of suspicion of harm to a minor or in possession of information about harm to a minor in order to pass it on to the person responsible for receiving reports or to another person indicated by the Managing Person of the Institute. The note may take the form of a letter or e-mail. In urgent situations, such information may first be provided orally using available communication channels.

#### **When the situation directly threatens the life or health of the child:**

- the appropriate services (e.g. police, ambulance - by calling the emergency number 112) are immediately notified of such a situation;
- The following shall also be notified:
  - Guardian of an abused child;
  - if such a circumstance occurs, also the Guardian of a child who has harmed another child.

The guardian of a child who is reasonably suspected of having been or is being harmed shall be informed in detail about the suspicions or information in possession. If the notification of the child's guardian is contrary to the child's best interests or impossible, this obligation is waived.

In the event of disclosure of an event of abuse of a minor, it is necessary to:

- isolate the child from the source of danger as soon as possible;
- provide him with safe and comfortable conditions;
- initiate intervention activities in cooperation with other institutions, if necessary;
- inform the child's guardian about the next actions that will be taken in connection with the revealed abuse;
- provide the child's guardian or child with the helpline number 116 111, if he/she considers it justified in the given circumstances;
- allow the child to be with a close person in whose presence he feels safe.

The person managing the Institute submits a report of a suspected crime to the prosecutor's office or the police, or a request for access to the situation of the family to the district court, the family and juvenile department and the social welfare centre. Further actions are taken by the relevant institutions, in accordance with their competences.

In the event that it is obvious that the Institute Staff has committed any form of harm against the child other than committing a crime to the child's detriment and there is no need to immediately notify the relevant institutions, the person responsible for receiving reports determines all the circumstances of the case, in particular with the Institute Staff or other witnesses of the event and, if necessary, with the person suspected of harm. If justified necessary, he/she may talk to the child with the prior consent of the Child's Guardian and in his/her presence.

In the event that the conversation with the child's guardian shows that he/she is not interested in helping the child, ignores the incident or otherwise does not support the child who has experienced abuse, the Person managing the Institute prepares a request for insight into the situation of the family, which is referred to the family court competent for the child's place of residence.

If the findings show that the child's guardian neglects the child's needs or the family is inefficient in terms of upbringing or uses violence against the child, the social welfare centre should be informed of this fact and the need to provide assistance to the family or the need to initiate the "Blue Card" procedure.

A service note is made of the course of each intervention. The note is attached to the register of interventions kept by the person responsible for receiving reports.

### **Chapter 3**

#### **Procedure and persons responsible for filing reports of suspected crime against a minor.**

The Persons Managing Persons of the Institute are responsible for filing reports on suspicion of committing a crime to the detriment of a minor.

The rules for filing a crime report are carried out in compliance with the obligations of reporting a crime, in particular Article 304 § 2 of the Code of Criminal Procedure and other relevant acts.

#### *Article 304 § 2 of the Code of Criminal Procedure:*

*"State and local government institutions which, in connection with their activities, have become aware of the commission of a crime prosecuted ex officio, are obliged to immediately notify the prosecutor or the Police thereof and to take the necessary actions until the arrival of the authority appointed to prosecute the offences or until such authority issues an appropriate order in order to prevent the obliteration of traces and evidence of the crime"*

When implementing the procedure of reporting a suspected crime, the child's guardian should be informed of this fact, respecting the principle of the child's best interests and acting in the child's best interests to ensure his/her protection.
